

Dear FCC,

It has recently been brought to my attention that the FCC is making changes that will affect my favorite radio station, K Love. I have really enjoyed K Love in the previous couple of years. I would be devastated if were taken off the air.

It is constantly and consistently providing encouraging thoughts and stress relieving music. I believe K Love provides this affects to my local community. I also believe K Love serves my community by providing a 24 hour hot line linking callers to Christian pastors who provide counseling 24 hours a day 7 days a week.

If K Love was taken off the air I do not believe that anything else could have a more positive affect on the community.

Thank you for listening to my comments.

Thanks,  
Morgan T.
